1932(a)(1)(A)	<p>A. <u>Section 1932(a)(1)(A) of the Social Security Act.</u></p> <p>The State of Nevada enrolls Medicaid beneficiaries on a mandatory basis into managed care entities (managed care organization (MCOs) and/or primary care case managers (PCCMs)) in the absence of section 1115 or section 1915(b) waiver authority. This authority is granted under section 1932(a)(1)(A) of the Social Security Act (the Act). Under this authority, a state can amend its Medicaid state plan to require certain categories of Medicaid beneficiaries to enroll in managed care entities without being out of compliance with provisions of section 1902 of the Act on statewideness (42 CFR 431.50), freedom of choice (42 CFR 431.51) or comparability (42 CFR 440.230).</p> <p>This authority may <i>not</i> be used to mandate enrollment in Prepaid Inpatient Health Plans (PIHPs), Prepaid Ambulatory Health Plans (PAHPs), nor can it be used to mandate the enrollment of Medicaid beneficiaries described in 42 CFR 438.50(d).</p> <p>Where the state's assurance is requested in this document for compliance with a particular requirement of 42 CFR 438 et seq., the state shall place check mark to affirm such compliance.</p>

Nevada Medicaid operates a fee-for-service and a managed care reimbursement and service delivery system with which to provide covered medically necessary services to its Medicaid eligible population. Contracted Managed Care Organizations (MCOs) are currently the primary managed care entities providing Medicaid managed care in Nevada; at this time, Nevada Medicaid does not contract with PIHPs or PAHPs.</p>

Payment Methods

Capitation:

MCO contracts are comprehensive risk contracts and are paid a risk-based capitated rate for each eligible, enrolled Medicaid beneficiary on a per-member, per-month (PMPM) basis. These capitated rates are certified to be actuarially sound.

Stop Loss:

Stop Loss occurs when costs of care exceed a threshold during a specified time period. Stop Loss is a re-insurance program where risk is shared between the DHCFP and the MCO for outlier episodic claims. For inpatient claims above a defined threshold, the State pays 75%, and the MCO Vendor has a co-pay of the remaining 25%.

Very Low Birth Weight Newborns (VLBW):

Payments for high-risk very low birth weight newborns are revenue neutral. VLBW payments are paid out of the zero-to-one year age band of capitation based on the risk-adjusted expectation of VLBW birth occurrences, per number of member-months' exposure. MCO plans submit clinical proof of VLBW (<1500 grams) occurrences and are paid according to date and time of delivery. Should eligible VLBW births exceed actuarial limits, MCO plans are fully at-risk for the remainder of the plan year.

PCCM:

PCCM contracts are paid at a PMPM basis for each eligible, enrolled Medicaid beneficiary. In addition, incentive payments could be made when the PCCM achieves specific cost savings goals and/or quality improvement measures.

For states that elect to pay a PCCM a bonus/incentive payment as indicated in B.2.b. or B.3.b, place a check mark to affirm the state has met ***all*** of the following conditions (which are representative of the risk incentive rules for managed care contracts published in 42 CFR 438.6(c)(5)(iv)).

- ☐ a. Incentive payments to the PCCM will not exceed 5% of the total FFS payments for those services provided or authorized by the PCCM for the period covered.

Not applicable to Nevada's PCCM as the incentive methodology was approved by CMS in the Nevada comprehensive Care Waiver (NCCW).

- ☒ b. Incentives will be based upon a fixed period of time.
- ☒ c. Incentives will not be renewed automatically.
- ☒ d. Incentives will be made available to both public and private PCCMs.
- ☒ e. Incentives will not be conditioned on intergovernmental transfer agreements.
- ☒ f. Incentives will be based upon specific activities and targets.

2. **Excluded Groups.** Within the populations identified above as Mandatory or Voluntary, there may be certain groups of individuals who are excluded from the managed care program. Please indicate if any of the following groups are excluded from participating in the program:

☐ Other Insurance--Medicaid beneficiaries who have other health insurance.

☒ Reside in Nursing Facility or ICF/MR--Medicaid beneficiaries who reside in Nursing Facilities (NF) or Intermediate Care Facilities for the Mentally Retarded (ICF/MR).

Nursing Facility:

The MCO is required to cover the first 45 days of a nursing facility admission. The MCO shall notify the DHCFP of any nursing facility stay admission expected to exceed forty-five (45) days. The beneficiary will be disenrolled from the MCO and the stay will be covered by FFS commencing on the 46th day of the facility stay.

ICF/ID:

Residents of ICF/ID facilities are not eligible for enrollment with the MCO. If a beneficiary is admitted to an ICF/ID after MCO enrollment, the beneficiary will be disenrolled from the MCO and the admission, bed day rate, and ancillary services will be reimbursed through FFS.

☐ Enrolled in Another Managed Care Program - Medicaid beneficiaries who are enrolled in another Medicaid managed care program

☐ Eligibility Less Than 3 Months - Medicaid beneficiaries who would have less than three months of Medicaid eligibility remaining upon enrollment into the program.

☒ Participate in HCBS Waiver--Medicaid beneficiaries who participate in a Home and Community Based Waiver (HCBS, also referred to as a 1915(c) waiver).

Beneficiaries who are receiving HCBS Waiver are not eligible for enrollment with the MCO. If a beneficiary is made eligible for the HCBS Waiver after MCO enrollment, the beneficiary will be disenrolled and the HCBS Waiver will be reimbursed through FFS.

☐ Retroactive Eligibility--Medicaid beneficiaries for the period of retroactive eligibility.

☒ Other (Please define):

Swing bed stays in acute hospitals over forty-five (45) days

The MCO is required to cover the first forty-five (45) days of a swing bed. The MCO shall notify the DHCFP of any swing bed stay expected to exceed forty-five (45) days. The beneficiary will be disenrolled from the MCO and the stay will be covered by FFS commencing on the forty-sixth (46th) day of the facility stay.

Residential Treatment Center (RTC)

Medicaid beneficiaries will be disenrolled from the MCO in the month following the RTC admission. The RTC admission, bed day rate, and ancillary services will be reimbursed through FFS thereafter for Title XIX Medicaid Beneficiaries.

Hospice

Medicaid beneficiaries who are receiving hospice services are not eligible for enrollment with the MCO. If a Medicaid beneficiary is made eligible for hospice services after MCO enrollment, the beneficiary will be disenrolled from the MCO and the hospice services will be reimbursed through FFS.

Seriously Emotionally Disturbed/Severely Mentally Ill SED/SMI, with limitations

The MCO is required to notify the DHCFP if a Title XIX Medicaid beneficiary elects to disenroll from the MCO following the determination of SED/SMI. However, in the event the Medicaid beneficiary, who has received such a determination, chooses to remain enrolled with the MCO, the MCO will be responsible for providing all patient care.

Nevada Medicaid Newly Eligibles, defined as childless adults ages 19-64, and the expanded parent and caretakers ages 19-64, who are made eligible as part of the PPACA expansion population and who are receiving the Alternative Benefit Plan, cannot opt out of managed care, where available, based on a determination of Serious Mental Illness (SMI).

F. Enrollment Process.

1. Definitions.

- a. Auto Assignment- assignment of a beneficiary to a health plan when the beneficiary has not had an opportunity to select their health plan.
- b. Default Assignment- assignment of a beneficiary to a health plan when the beneficiary has had an opportunity to select their health plan.

2. Please describe how the state effectuates the enrollment process. Select an enrollment methodology from the following options and describe the elements listed beneath it:

- a. X The applicant is permitted to select a health plan at the time of application.

- i. How the state fulfills its obligations to provide information as specified in 42 CFR 438.10(e).

At the time of application, the applicant is provided with each MCO plan's telephone number and website. The MCOs have complete lists of active providers on their websites. The applicants also have access to a comparison chart of the MCOs which highlights each plan's added benefits.

- ii. What action the state takes if the applicant does not indicate a plan selection on the application.
A first time beneficiary, that is one who has never been enrolled in an MCO and who is not joining an established case, will be asked to

Their enrollment will go into effect immediately upon approval of their Medicaid eligibility.</p> <p>Absent a choice by the applicant, the State will complete a default enrollment process, and they will be assigned to an MCO based upon an algorithm developed by the State to distribute enrollees among the MCOs.</p> <p>The beneficiary has a 90-day period in which they are entitled to change MCOs. Beneficiaries may also change their MCO once every 12 months during open enrollment.</p> <p>For a beneficiary, new to Medicaid or returning, who is joining an open case where another family member is currently enrolled in an MCO; they will automatically be assigned to the same MCO as the rest of the family and will not have a 90 day right to change period. Their enrollment will go into effect immediately upon approval of their Medicaid eligibility.</p> <p>These new case members, as well as the rest of the family, remain locked-in until the next open enrollment period.</p> <p>A returning Medicaid beneficiary who had a lapse in managed care enrollment for 2 months or less due to a loss in Medicaid eligibility will automatically be assigned to their former MCO. For those returning in the first month, their enrollment will go into effect the beginning of that month with no lapse in enrollment. For those returning in the second month, their enrollment will go into effect immediately upon approval of their Medicaid eligibility. They will not have a 90 day right to change period and will be considered locked-in until the next open enrollment period.</p> <p>A returning Medicaid beneficiary, who had a lapse in managed care enrollment for 2 months or less for reasons other than a loss in Medicaid eligibility OR for more than 2 months no matter the reason, will have enrollment rules applied as follows. Their enrollment will go into effect immediately upon approval of their Medicaid eligibility.</p> <p>If the beneficiary is returning to an open case where another family member is currently enrolled in an MCO, they will automatically be assigned to the same MCO as the rest of the family and they will not have a 90 day right to change period and will be considered locked-in until the next open enrollment period.</p> <p>If there are no other family members on the case currently enrolled in an MCO, and the beneficiary made a new MCO choice on their application, they will be enrolled into their MCO of choice and may disenroll without cause within the first 90 days of enrollment.</p> <p>If the beneficiary did not make a new choice on their application, they will be assigned to their former MCO and may disenroll without cause within the first 90 days of enrollment.</p>

Condition or Requirement

Regardless of which enrollment or default assignment process is used, the head of household will be notified of all choices that need to be made, the timeframe for making these choices, and the consequence of not making a choice.

For the MCOs, the total maximum lock-in period is 12 months inclusive of the initial 90 days up front to disenroll without cause. The beneficiaries will be notified of their option to change MCOs at least 60 days prior to the end of the lock-in period. Beneficiaries will be allowed to change MCOs during the annual open enrollment period.

- iii. If action includes making a default assignment, describe the algorithm used and how it meets all of the requirements of 42 CFR 438.50(f).

To reduce large disparities and adverse risk between MCOs, the State uses a default assignment algorithm for auto-assignment of first time beneficiaries. The algorithm will give weighted preference to any new MCO, as well as MCOs with significantly lower enrollments. This is based on a formula developed by the State. The State may also adjust the auto-assignment algorithm in consideration of the MCO's clinical performance measure results or other measurements. The algorithm is as follows:

*Auto Assignment Algorithm				
Number of Plans in Geographic Service Area	Percentage of Beneficiaries Assigned to Largest Plan	Percentage of Beneficiaries Assigned to 2nd Largest Plan	Percentage of Beneficiaries Assigned to 3rd Largest Plan	Percentage of Beneficiaries Assigned to 4th Largest Plan
2 plans	34%	66%		
3 plans	17%	33%	50%	
4 plans	10%	10%	30%	50%
* The function of the algorithm is to ultimately achieve no more than a 10% differential in enrollment between all MCO contractors. Once the differential is achieved, use of this algorithm will be discontinued and head of households will be auto assigned on rotating basis.				

- iv. The state's process for notifying the beneficiary of the default assignment.

3. State assurances on the enrollment process.

Place a check mark to affirm the state has met all of the applicable requirements of choice, enrollment, and re-enrollment.

- a. ☒ The state assures it has an enrollment system that allows Beneficiaries who are already enrolled to be given priority to continue that enrollment if the MCO or PCCM does not have capacity to accept all who are seeking enrollment under the program.
- b. ☒ The state assures that, per the choice requirements in 42 CFR 438.52, Medicaid Beneficiaries enrolled in either an MCO or PCCM model will have a choice of at least two entities unless the area is considered rural as defined in 42 CFR 438.52(b)(3).

This exception to choice applies to the PCCM(s). Under the NCCW authority, beneficiaries are allowed to choose from at least two care managers. This does not apply to the MCOs, which are only located in urban areas.

The MCOs are required to use geo-mapping and data-driven analyses to ensure compliance with access standards and take appropriate corrective action, if necessary, to comply with such access standards. The contract includes appointment access standards. If a recipient is having access to care issues, they can contact their MCO for assistance, which must ensure timely access to covered services. The MCOs partner actively with the DHCFP, community providers and stakeholders to identify and address issues and opportunities to improve health care access and availability for Medicaid and CHIP members.

1932 (a)(1)(A)(ii)	N. <u>Selective Contracting Under a 1932 State Plan Option</u> To respond to items #1 and #2, place a check mark. The third item requires a brief narrative. <ol style="list-style-type: none"><input checked="" type="checkbox"/> The state will intentionally limit the number of entities it contracts under a 1932 state plan option.<input checked="" type="checkbox"/> The state assures that if it limits the number of contracting entities, this limitation will not substantially impair beneficiary access to services.Describe the criteria the state uses to limit the number of entities it contracts under a 1932 state plan option. (<i>Example: a limited number of providers and/or enrollees.</i>) Historically Nevada has limited its managed care program to two managed care organizations to ensure an adequate number of enrollees to support the administrative and quality management requirements of the program. In the future, due to the large increase in enrollment in managed care resulting from Nevada implementing the expansion to the Medicaid population authorized by the Patient Protection and Affordable Care Act, Nevada may increase the number of managed care organizations it contracts with.<input type="checkbox"/> The selective contracting provision is not applicable to this state plan.
